

Look how good our Show Stoppers look at the conference breakfast were they not only received a wonderful start to their day, but some of our members received awards for points earned throughout the previous show year.

The barn tours were filled with horse lovers of all ages. The Show Stoppers experienced different types of riding styles. At this particular barn they learned about long lead lung line lessons and how they benefit the rider's core.

The grand finale of the weekend was a formal ball at the Keeneland's Grand Ballroom. The evening was filled with many renowned individuals receiving awards from lifetime achievement to horse of the year. It was a spectacular evening ending with the music of a full orchestra for all guests to dance the night away. Believe me our showstoppers and families got on the floor and did just that.
